Hi!

This is the Reshim platform - it was created to support projects that help people affected by the war in Ukraine.

Here you can:

- in the project profile - post brief information and links to your humanitarian projects;
- add, edit and close tasks that require volunteer help for humanitarian projects - using the task form;
- comment on and clarify tasks in the comments box;
- respond to tasks if you are willing to do volunteer work in line with what the project needs. Responses to tasks should relate to the content of the published task.
- Information about projects and volunteer tasks is subject to mandatory moderation before publication.

It is forbidden:

Disrespectful communication - both in open comments and in private chats;

Questions and comments unrelated to the themes of humanitarian projects and volunteering for them;

Images, videos and links without explanation;

Advertisements for other projects, organizations or services without approval of the portal administrators. If you would like to offer us to post information about your non-commercial project, send us a message: Telegram @reshim_hub_bot and e-mail info@reshim.org.

User comments may be deleted if they violate these rules. Administrators may remove information that does not serve the purpose of the platform and Reshim's mission without giving a reason. You may complain about information that does not comply with the rules in the comments section.

Ask a question to the administrators:
